4. Race information

4.1 Rules and regulations

The event will be conducted under the BMX rules and regulations of AusCycling (AC) and the Union

Cycliste Internationale (UCI). This Technical Guide is supplementary to the following:

- AusCycling Technical Regulations: General: https://auscycling.org.au/clubs/event-organiser-hub/technical-regulations
- AusCycling Technical Regulations: BMX: https://auscycling.org.au/clubs/event-organiser-hub/technical-regulations
- AusCycling Technical Regulations: Para Cycling: https://auscycling.org.au/clubs/event-organiser-hub/technical-regulations
- UCI Regulations - BMX: https://www.uci.org/regulations/3MyLDDrwJCJJ0BGGOFzOat

4.2 Race format

BMX Racing is fast and furious, with races typically taking between 30-50 seconds. Riders launch themselves from a gate atop an 8-metre hill for the elite athletes and often reach speeds of up to 60km/h. This discipline is all about explosive power and skill to hold speed around the track, which is usually 200-400m and includes a variety of jumps, corners and flat sections.

Current UCI rules apply, using the Scrambled Moto transfer system for all categories except participation. Block format may apply pending rider entries. Gate positions for Motos are drawn at random by computer. Total points to the end of the Motos are followed by Qualifiers and Finals. Gate positions for Qualifiers and Finals are in order of lap time from the previous stage or round.

A category of one full gate or less (eight riders or less) is run in accordance with section 2.05.04 of the AusCycling Technical Regulations: BMX (https://auscycling.org.au/clubs/event-organiser-hub/technical-regulations).

Category	Race format
Mini Wheelers / Sprockets	4 Motos
Challenge / Masters / Para / Junior Superclass / Superclass	3 Motos, Qualifiers, Finals

4.3 Timing and results

You can find your results live on the Sqorz platform, here:
https://our.sqorz.com/org/bmxsa/event/6ad936da317f86b8cb433671/classes

4.4 Corporate team scoring

Points calculation for Corporate Teams:

- Points are awarded in each of the Motos and the Final (not Qualifiers): 1st 20, 2nd 18, 3rd 16, 4th 14, 5th 12, 6th 10, 7th 8, 8th 6.
- Scores are taken from the top four riders of each Corporate Team. The four riders can come from any category except Sprockets and Mini Wheelers.
- For riders entering more than one category, the best result from one of those categories is considered.
- For merged categories, points are assigned in accordance with the entered category.

In the event of a tie, the result is decided by the greatest number of 1st place results across the whole race, then 2nd, 3rd, 4th, 5th, 6th, 7th and 8th place results. If still tied, an index is calculated for each rider by comparing their best time with the average time for their entry category: a faster than average time gives a positive index, a slower one a negative index. The indexes are totalled and the team with the most points wins.

4.5 Club championship scoring

Points calculation for the BMX Club Championship:

- Points are awarded in each of the Motos and the Final (not Qualifiers): 1st 20, 2nd 18, 3rd 16, 4th 14, 5th 12, 6th 10, 7th 8, 8th 6.
- Scores are taken from the top four riders of each club. The four riders can come from any category except Sprockets and Mini Wheelers.
- For riders entering more than one category, the best result from one of those categories is considered.

In the event of a tie, the result is decided by the greatest number of 1st place results across the whole race, then 2nd, 3rd, 4th, 5th, 6th, 7th and 8th place results. If still tied, an index is calculated for each rider by comparing their best time with the average time for their entry category. The indexes are totalled and the club with the most points wins.
