AUSCYCLING

Communiqué ONE From Commissaires Panel:

Name of the race: 2026 AusCycling MTB National Series - Round 1

Format: XCO

Venue: Mt Crosby, Brisbane, QLD

Date: 22/11/2025

Subject: E-Bike Compliance Testing & Procedure | Registration opening times

Date: 21/11/2025 **Time of issue**: 12:00pm ADST

E-Bike Compliance Testing & Procedure

E-Bike Riders, please note the Post Race testing process below:

At the conclusion of race four (4) on Saturday the 22nd of November, Commissaires will identify bikes that must enter the testing zone to assess compliance against the standards listed in the technical regulations.

The following process will be implemented post-race:

1. Once crossing the finish line, a member of the commissaire panel will take the bike from the rider and place the bike in an identified testing zone.
2. Riders in possession of a mobile phone device will be asked to also submit this device to the commissaire for the duration of the testing.
3. Commissaire or independent assessors will conduct checks on requested bikes to ensure compliance with technical specifications.
4. Testing will involve increase the bike speed whilst monitoring a GPS bike computer to confirm the speed in which the assistance ceases (25km/h). This riding-based speed test is used to verify that e-bike motor assistance disengages at the required 25 km/h, supporting fairness and legality in Australian MTB competition.
5. At the completion of the testing, riders will be advised of compliance with Technical Regulations before the confirmation of official placings.

Iain Masters
President of the commissaires Panel

Registration opening times

To offer riders more flexibility, riders may report to the registration desk at least one hour prior to their race to collect their race plates.

Please note that the registration desk will take on additional duties after 8:00am to accommodate canteen duties as well as handle rider registrations.

Iain Masters
President of the commissaires Panel
